Due to high web traffic there have been problems with the site, so keep checking periodically if you find it not to be working.

NJ is actively vaccinating in phase 1A, which includes healthcare workers and long term care residents. Next will be phase 1B that includes frontline essential workers, 75 and older, and other high risk groups. Group 1C will include other essential workers, those age 65 and over, and persons aged 16-64 with medical conditions that increase the risk for severe COVID-19 as defined by the CDC. Following these phases, Phase 2 will begin for the general public.

Which people are included in which phase sometimes changes, so please continue to check the State's website for any changes.

For any COVID-19 related updates please check our website scaupdates.org/covid19
